

LED Trough Light Price List

LED Extrusion:

This price includes for the silver anodised 28mm diameter extrusion profile, complete with the high brightness white LEDs installed; the side end caps, and the clear acrylic diffuser front cover; the product is supplied complete and ready to use.

Up to 10 metres	£83.00 per mtr
More than 10 metres	£77.00 per mtr

Power Supply (optional):

This is the driver for the LEDs; each power supply will run up to 3 metres of the LED extrusion, however there are 'bigger' power supplies available load wise; to suit the much larger applications.

IP66 2.5A / 30W Power Supply	£11.00
Dimensions: 230mm x 37mm x 27mm	

Paint (optional):

Instead of the standard anodised silver finish, Applelec can paint the aluminium profile to any std RAL / BS colour reference; in order to match a fascia board or mounting surface; for non std or 'other' colours please contact a member of staff.

To paint a std RAL / BS colour	£30.00
For up to a 6 metre length	

LED Trough Light Price List

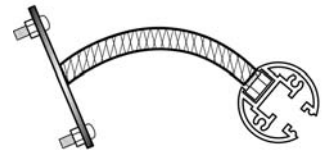

Fixing Brackets (optional):

The extrusion profile can accommodate a variety of fixing brackets, whether they are supplied by Applelec, by the user, or perhaps through a specialist supplier of fixing components; alternatively custom made brackets can be made up by Applelec to suit a particular application, please contact a member of staff for details.
